ACCURACY HARMONY BALANCE

IPA 100

INTERIOR PARTITION SYSTEM

In the IPA 100 office partition system, panels are attached to hidden aluminum carrier profiles with clip profiles. One of the important features of this system is that it offers almost endless design possibilities.

There are various production options, it is possible to apply coatings with paint, textile, painted glass, lace, fabric, painted glass panel, door types, sound absorbing elements. The modules created in the vertical and horizontal directions can be designed as full glass, upper part glass, panel modules on the glass.
